

Use your training to share the love of Jesus Christ with those affected by disability in an underdeveloped country.

We are looking for physical and occupational therapists to join our *Wheels for the World* short-term mission teams to individually fit 200 wheelchairs during two different outreaches. We will be distributing the free gift of a wheelchair that would normally cost a year's wage to those who are usually shunned from society. In addition, we will share the free gift of salvation through faith in Christ with the help of National volunteers who will follow up after we return to the States.

September 2-13 we will be ministering in the former Soviet republic of Ukraine. This outreach will be particularly rewarding because it is a partnership between *Joni and Friends-Wheels for the World* and the humanitarian branch of *Campus Crusade* called *Global Aid Network*. The estimated cost is \$3200. You can print an application preferably by June 24th and find further information at <http://gainusa.org/trips/ukraine-fall.php>.

The second outreach we will be leading is November 4-16 to villages in Peru. You will have the opportunity to worship "Peruvian-style" and see disability ministry in action. The estimated cost is \$2400. Please apply online by July 22nd at <http://www.joniandfriends.org/wheels-for-the-world/peru-trujillo-2011/>.

Would you prayerfully consider joining us and forwarding this information to any therapist that God lays on your heart?

***WFTW* short-term mission trips have such a dramatic impact on both those serving and receiving. God makes Himself known in ways that are life-changing.**

Jill and Richard Neuenschwander
